THE CHESAPEAKE AND POTOMAC TELEPHONE COMPANY OF VIRGINIA

The Chesapeake and Potomac Telephone Company of Virginia

For all business transactions with the Company call the
Business Office shown below

VIRGINIA BEACH

Business Office
302 22d Street

N. H. DuVal, Manager

Telephone Number
Virginia Beach 12000

OFFICE HOURS

Business Offices are open from 8:30 A. M. to 5:00 P. M. daily, except Sundays.

OUR aim is to render a service that will be satisfactory in all respects to our patrons. We realize, however, that difficulties sometimes will occur notwithstanding all our efforts to avoid them. When they do, we are anxious to correct them promptly and to take steps to prevent them from happening again.

If at any time difficulties are not corrected promptly or unsatisfactory conditions persist it will be appreciated if you bring the matter to the attention of the manager or communicate with me.

B. N. THORNTON, *District Commercial Manager,*
120 W. Bute St., Norfolk, Va.
Telephone 21363

A. L. LAMB DIN
General Commercial Manager
Richmond, Va.

W. H. TRAPNELL

V. B. FITZPATRICK
General Plant Manager
Richmond, Va.

J. T. GRAFF
Chief Engineer
Richmond, Va.

ROBERT C. McCANN, *General Manager*
703 E. Grace St., Richmond, Va., Telephone 2-9121

INFORMATION REGARDING BILLS

Telephone bills are payable when received, and should be presented when payment is made.

Remittances made by mail should be addressed to the Business Office, and should be accompanied by the bill stub. If the stub has been mislaid, the telephone number should be noted on the check.

Where Bills May Be Paid

Bills may be paid at the telephone office, 302 22d Street, and at the National Bank of Commerce (Virginia Beach Branch).

Billing Dates

Telephone bills are dated the 11th each month and are mailed a few days later.

Period Covered by Bills

Local service charges are billed for one month in advance of the billing date. Out-of-town calls and telegrams are billed for one month prior to the billing date.

Bills to New Subscribers

These will include charges from the date service begins up to the billing date and installation charges, as well as the advance monthly charges described above. Advance payments are applied to the bill; deposits are normally retained until disconnection of the service.

Bills Following Changes in Service

The first bill will include an adjustment between the old monthly billing charge and the new, from the date of the change to the billing date.

GENERAL INFORMATION

If you want your telephone moved, or a new one installed, notify the Business Office by telephone—12000—by mail, or in person. At least five days' notice will help prevent delays.

Inquiries about telephone facilities, directory listings or advertising, adjustment of accounts, or any other matter affecting your service, should be also made to the Business Office.

The Telephone Directory

This directory is the property of the Company. To prevent mistakes, we ask that it be destroyed when a later one is issued. The Business Office will replace copies lost or mutilated.

Additional listings and advertising may be arranged for through the Business Office.

We make every effort to have listings absolutely correct. It will help us if you will check your own listings, and if incorrect, notify the Business Office at once so that we may adjust our records for the next issue and meanwhile protect your service.

Advertising Telephone Numbers

Those who anticipate large numbers of incoming calls, such as retail stores and professional people, find it advantageous to display their telephone numbers on advertising, stationery and other printed matter. This is wise, but we urge care in printing such quantities as will not involve a loss should a rearrangement of telephone facilities make

necessary a change in the telephone number at some future time.

Telegrams by Telephone

If you wish to send a telegram, cablegram or radiogram, call the Postal Telegraph-Cable Company or the Western Union Telegraph Company. Charges will appear on your telephone bill.

You may also send telegrams from public telephones, depositing the charges in the coin box.

Identification of Employees

Employees who are authorized to examine, exchange or remove any of this Company's apparatus carry a badge, showing a "Bell," the Company's name and a number.

Attachments to Telephones

The Company does not sanction the use of special devices attached to its telephones, except those furnished by it. Unauthorized attachments, supposedly, an added convenience, may actually be detrimental to good service.

THE SIMPLICITY OF OUT-OF-TOWN CALLS

Out-of-town calls are almost as easy to make as local calls and in most cases they go through while you hold the line.

Here are some suggestions to help you decide whether the lower-priced station-to-station call will serve your needs or whether a person-to-person call is necessary.

Station-to-Station Calls

On such calls you agree to talk to anyone who answers or who may be called to the distant telephone.

This is the cheapest form of out-of-town call and, except to nearby points, the charges are lower at night and on Sunday as shown on page 5.

In making such a call say to your local operator, for instance, "I want Pittsburgh, Pennsylvania, Lehigh 9375."

If you do not know the number or wish to make the call "collect," call "Long Distance." Then say, "I want anyone at Alfred Green's residence at 927 Park Avenue, Pittsburgh, Pennsylvania." Be sure you do not specify any particular person with whom you wish to talk.

Charges do not begin until the called telephone answers. There is no charge if the call is not completed, except for a small report charge in the case of a "collect" call on which the called party will not accept the charges.

Person-to-Person Calls

On such calls you wish to talk to a particular person.

The charges are higher than for station-to-station calls. Except to nearby points, the charges are reduced at night and on Sunday as shown on page 5.

To make a person-to-person call, call "Long Distance" and say, for instance, "I want Pittsburgh, Pennsylvania, Lehigh 4400, Mr. James Grove."

If you do not know the number, say, "I want Mr. James Grove, 965 East Avenue, Pittsburgh, Pennsylvania."

If the called telephone is reached but the person desired is not available, a small "report charge" is made to compensate the Company for the work done.

Appointment or Messenger Calls

The Long Distance Operator will arrange an appointment in advance to be sure that the called party will be at the telephone when you call. A messenger will be sent to reach him, if necessary.

Charges are the same as for person-to-person calls, but an additional charge is made for the messenger service.

Collect Calls

Charges for any out-of-town call will be put on the bill of the called party, if someone at the called telephone agrees to accept the charges.

Reversal of charges is permitted on all classes of toll service except calls to Mexico, calls to high seas vessels and overseas calls. No additional charge is made for this service, except that a somewhat higher rate applies on station-to-station calls where the rate is 20c or less. Rates may be obtained by calling "Long Distance."

To Ascertain Charges

If you wish to be told the charge on any out-of-town call, ask the operator when you make the call. After you hang up the receiver, the operator will compute the charge and call you back.

Rates from Virginia Beach to Selected Out-of-Town Points

All rates quoted are for 3-minute initial periods except for station-to-station calls of 25c or less for which a 5-minute initial period is allowed. Charges of 50c or more are subject to government tax. For rates to other places or to ships at sea call "Long Distance."

If you can give the telephone number of the distant subscriber on any class of call, your call will be handled more promptly.

TELEPHONE ACCESSORIES

for Greater Convenience in Your Home and Place of Business

1—Amplifier for Hard-of-Hearing

This small device enables most persons with impaired hearing to enjoy the use of the telephone. It has several stages of amplification and may be cut off readily for normal use of the telephone by others. For those who have difficulty

hearing the regular telephone bell, special bells or lights are available.

2—Portable Telephones

These may be connected, as needed, to telephone outlets installed in guest rooms, club rooms, dens, sun porches and other occasionally used places. They are provided in many modern hospitals, restaurants, beauty parlors and barber shops for the convenience of patrons.

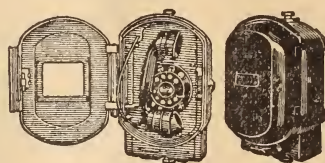

3—Hanger-Type Telephones

These are particularly convenient in such locations as pantries, kitchens, basements, work shops, and offices where the maximum amount of working space on tables and desks is desired.

4—Outdoor Telephones

Enclosed and weatherproof, these are designed for use at outdoor locations such as yards, docks, taxi stands and construction jobs. They

are equipped with a lock to prevent unauthorized use, and with the convenient hand telephone.

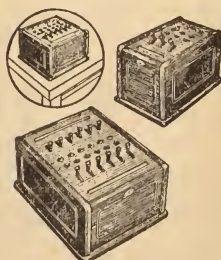

5—Key Telephones

These combine in one piece of equipment both telephone and switchboard. They provide the maximum in simplicity and efficiency for homes and offices where intercommunicating service is needed in conjunction with outside service.

COMMUNICATING
CALL

6—Key Cabinets

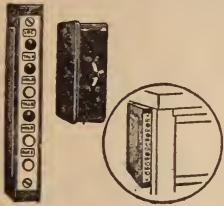

Available in several sizes, these are particularly suitable for small business telephone layouts such as professional offices, mercantile order departments, and brokerage concerns. They permit calls on any one of several lines to be answered

from a single telephone at a central location. Audible as well as visible signals are provided.

7—Other Key Devices

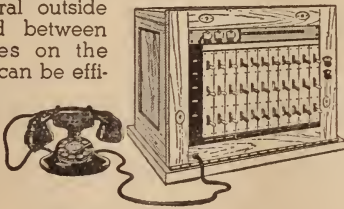

Various simple and inexpensive arrangements are available, for use in home or office, which permit

- cutting off extension telephones to assure privacy and to prevent unauthorized use;
- calling other telephones on the premises;
- answering calls on any one of several lines from one telephone;
- holding a call on one line while calling on another line over the same telephone.

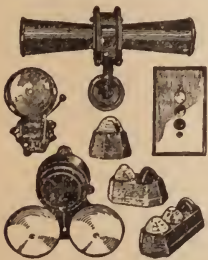

8—Small Switchboards

These are designed for use in offices, shops and stores where it is desirable to centralize the receiving and distributing of calls at one location. Connections with several outside lines, and between telephones on the premises, can be efficiently handled by the switch-board attendant.

9—Signals (Bells, Gongs, Horns, Lamps)

For locations which are noisy or where for any other reason the regular telephone bell cannot easily be heard, special loud ringing bells or gongs are frequently helpful. Horns and lamp-indicators can be similarly used. In offices or shops having numerous telephones, either lamp signals or bells with differing tones are desirable to show which telephones are being called.

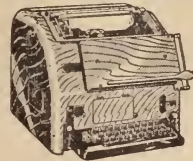

10—Special Receivers and Transmitters

Available in various styles, these devices are particularly useful to order-takers, filing clerks, persons with slightly impaired hearing and those who use the telephone almost constantly. One style enables more than one person to listen to conversations; other styles permit both hands to be free for writing or telephoning.

11—Teletypewriters

These do for the printed word what telephones do for the spoken word. They provide instant, accurate, printed communication between two or more points; keep distant departments of a business "in touch"; save time and prevent errors.

12—Code Paging Systems

Designed for use in large establishments, such systems enable persons to be promptly called to the telephone. Switchboard operators need not waste time telephoning various offices or departments to locate someone. Merely pushing a button automatically sounds a code signal on special bells or musical gongs installed throughout the premises. Systems can be adapted to either outdoor or indoor use.

Many Other Services and Items of Equipment

(telephones in attractive colors . . additional central office lines for the business or home . . directory listings for various members of the firm or household . . handy extension telephones for the bedside or kitchen . . etc.)

are Available to Meet Your Telephone Needs
